Volare Phoenix Fund

Class B Accumulation Units (GBP) (ISIN GB00B0Z86F58)

The Fund is managed by FundRock Partners Limited.

Objective and investment policy

Objective:

- The Fund aims to generate growth with income over a period of 5 years or more by investing in a diversified portfolio of equities (company shares and investment companies) and bonds (loans to governments or companies).
- The Fund's performance target is to exceed the return of the ARC Private Client Indices (PCI) Balanced Asset Index per annum, evaluated over rolling three year periods (after charges). The Performance Target is the level of performance that the management team hopes to achieve for the fund. There is however no certainty or promise that they will achieve the performance target.
- The manager believes this is an appropriate target for the fund since it reflects the risk and return profile that private clients expect and aligns with the investment policy of the fund.

Policy:

- The Fund invests at least 70% in global equities (company shares and investment companies), and bonds including government bonds (loans to a government) and investment grade corporate bonds (loans to a company) issued anywhere in the world.
- The Fund's equity holdings may include for example investments in companies operating in infrastructure, energy, property and commodities.
- The Fund's bond holdings may include for example investment in sub-sovereign debt, sub-investment grade and convertible issued anywhere in the world.
- The Fund has flexibility to seek returns from currencies. The Fund may also invest in other collective investment schemes (including collective investment schemes managed by the manager) money-market instruments, and cash.
- The management team use their discretion (active management) to identify holdings and derivatives based on an analysis of global economic and market conditions (for

example, interest rates and inflation) and analysis of a company's prospects and creditworthiness compared to that of the market.

- They focus on selecting company shares, bonds and derivatives, and ensuring that the allocation of assets meets the fund's objectives.
- The Fund may routinely use derivatives to reduce risk, to reduce cost and/or generate extra income or growth consistent with the risk profile of the fund (often referred to as "efficient portfolio management"), and for investment purposes.
- Derivatives include instruments used to manage expected changes in interest rates, companies share prices, currencies or creditworthiness of corporations or governments.
- The Fund may also invest in other funds which may use derivatives extensively although these investments shall be in line with fund's overall risk profile.

Benchmark:

Performance Target: ARC Private Client Indices (PCI) Balanced Asset Index. This Fund does not track performance against a constraining benchmark.

Other information:

- We carry out investors' requests, to buy, sell or switch, at midday on each business day (which excludes UK public holidays). If we receive a request after midday, we deal with it on the next business day.
- The Fund's base currency is Pounds Sterling.
- There can be no guarantee that the objective of the Fund will be achieved.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.
- On encashment, particularly in the short-term, you may receive less than the original amount invested.

• This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

• The risk category shown is not guaranteed to remain unchanged and may shift over time.

• The lowest category does not mean 'risk free'.

• The Unit B Units above appear as a '4' on the scale. This is partly because the Fund invests in a mixture of investments, whose values do not fluctuate widely.

• The Fund does not provide its investors with any guarantee on performance, nor on monies invested in it.

• In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:

• Equity Risk - The Fund may invest in equity whose market price may decline due to specific changes in the company perspectives or market sell-off. Should this happen the value of investments in the Fund may fall.

• Credit Risk - The Funds will be exposed to a credit risk on parties with whom it trades

and will also bear the risk of settlement default.

• Interest Rate Risk - Interest rate movements affect the value of bonds. Bonds with a longer maturity period are more sensitive to changes in interest rates.

• Emerging Markets Risk - Investments in emerging markets may be more volatile or risky than investments in more developed markets because of: relatively unstable governments; economies based on only a few industries; limited number of securities traded on securities markets; less developed regulatory systems; or less stringent disclosure standards.

• China A/Stock Connect Risk - Investing in China A shares involves special considerations and risks, including without limitation greater price volatility, less developed regulatory and legal framework, economic, social and political instability of the stock market in the People's Republic of China.

• Derivatives - Certain derivatives could behave unexpectedly or could expose the fund to losses that are significantly greater than the cost of the derivative. Derivatives in general are highly volatile and do not carry any voting rights.

• High Yield Credit Risk - A bond or money market security could lose value if the issuer's financial health deteriorates, or in extreme cases could go into default (cease to make timely payments of principal or interest). This risk is greater the lower the credit quality of the debt, and the greater the fund's exposure to below investment grade bonds (also known as "High Yield bonds")

• For full details of the Fund's risks please refer to the Fund's Prospectus, which is available from the Manager at FundRock Partners Limited – LGT, PO Box 12391, Chelmsford CM9 2EU or, during normal business hours on 01268 44 5772.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Class B Acc (GBP)

Entry Charge	3.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested (Entry charge) or before the proceeds of your investment are paid out (Exit charge).
